

CAREER OBJECTIVE

Seeking an opportunity to apply my skills in Data Science, Data Analytics, and Backend Development to solve real-world problems. Passionate about building scalable data-driven solutions using Python, SQL, and Flask while continuously enhancing my technical expertise through hands-on projects.

EDUCATION

Bachelor of Science (B.S), Data Science And Applications Indian Institute Of Technology Madras	2026 - 2030
B.Tech, CSE Artificial Intelligence And Machine Learning Sanskriti University	2024 - 2028

TRAININGS / CERTIFICATIONS

Data Analytics

Mar 2025

Indian Institute Of Technology Delhi (IIT Delhi), Delhi

Completed a certified Data Analytics Workshop from IIT Delhi. Gained hands-on experience in data cleaning, data visualization, KPI analysis, and dashboard creation using Excel/Power BI. Learned to analyze real-world datasets and derive business insights for decision-making.

PROJECTS

Employee-Data-Analysis-MySQL ↗ Mar 2026 This project is a Employee Management Analysis using MySQL. It demonstrates database design, data storage, and query operations for managing employee records. The project includes: - Database schema creation - Employee dataset - SQL queries for data analysis	Data_Analysis_Dashboard_using_Excel ↗ Feb 2026 This project analyzes sales and profit data to evaluate business performance across products, regions, and time. An interactive dashboard highlights key KPIs, trends, and profit patterns. The analysis supports data-driven decision-making by identifying profitable and loss-making areas. Project Objective
Superstore_Performance_Dashboard_using_Power-BI ↗ Feb 2026 Interactive Power BI dashboard analyzing sales, profit, customers, and regional performance of a retail superstore with actionable business insights.	

SKILLS

- MS-Excel
 - Python
- Power BI
 - Statistical Modeling
- MySQL
 - Flask
